

Equipment Design Consulting Software Rental

Crosshole Seismic Tomography Equipment

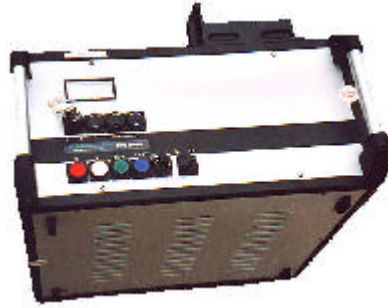

Seismic Borehole Sources

SBS-42

P-Wave

Impulse generator IPG 1005

Remote Control Unit RCU

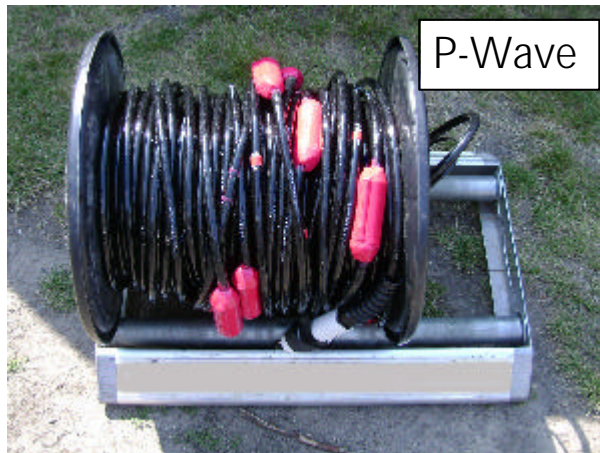

BIS-SH

S-Wave

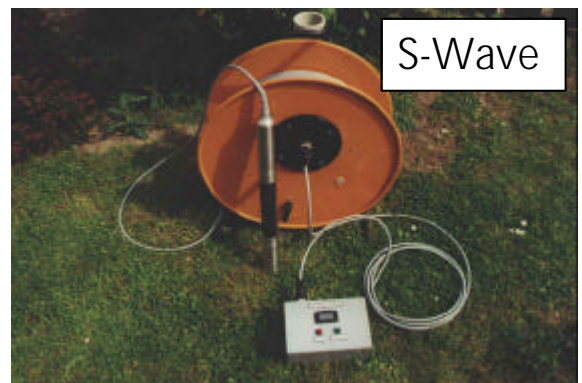

Seismic Borehole Receivers

P-Wave

Hydrophone Strings with 12, 24 or 48 channels

S-Wave

3C-Geophone with magnetic compass and pneumatic clamping

Seismic Recording System

Geotomographie equipment runs with common seismographs like ABEM, DMT, Geometrics or Oyo.

Seismic Interpretation Software

2D/3D software program GEOTOMCG or ReflexW (Sandmeier Software).
